EDUCATION

STEM Summer program, Wollo University
- Conducted experiments, gathered and analyzed data.
- Collaborated with a team to work on scientific experiments.

May 2015 – August 2019
Dessie, Ethiopia

Bachelor of Science in Electrical and Computer Engineering (Computer Stream), Addis Ababa Institute of Technology
CGPA - 3.73/4.00
Relevant courses - Computer Architecture, Data Structure and Algorithms, Digital logic, Database Systems, Microcomputer and Interfacing, Computer and Network Security

October 2019 – present
Addis Ababa, Ethiopia

SUMMARY

As a computer engineering student with a keen focus on software development, I possess proficiency in Java, Python, and C++, complemented by a solid understanding of computer networking and hardware design. I am eager to apply my programming and software engineering skills to drive innovative technology solutions. I am actively seeking opportunities for internships or projects that will enable me to further develop my expertise in software engineering within the context of computer engineering. I am committed to contributing my problem-solving abilities, software development expertise, and dedication to staying on the cutting edge of technology to make a meaningful impact in the field.

SKILLS

Client-Side ● ● ● ● ○
HTML
CSS
JS
React
Redux
TypeScript
Bootstrap
Dart

Server-side ● ● ● ● ○
MySQL
NodeJS
MongoDB
Go
Firebase

Version Control ● ● ● ● ○
Git

Testing Frameworks ● ● ● ○ ○
Jest

Soft Skills
Teamwork
Communication
Problem-Solving
Adaptability
Time Management

API testing and development ● ● ● ● ○
Postman
